ADD T

Francesco Rota | 2016

Writing, reading, and when the community is enlarged, working and meeting. Minimalist like an infinite verb, the ADD T table meets the requirements of any environment. With its lightness and great character, the table sparkles with life and the complete adaptability of the ADD seating system. Thanks to its die-cast aluminium legs, which create a single corner solution or extend with the addition of frames, multiple compositions can be created. Cables run, concealed and fixed under the profile. Sockets and power adaptors are inserted in the tabletop. For a calm day, where everything is user-friendly.

ADD T

Francesco Rota | 2016

Modular system of tables with frame in aluminium extrusion and die-cast corner and linking legs which allows several configurations. Tops available in HPL Fenix® or veneered in black open pore or blanché oak. All metal components are powder coated.

use and maintenance instructions

Clean all parts in wood, leather, fabric and metal with a damp cloth or a diluted neutral cleaner. Do not use cleaners with alcohol, bleach, solvent or abrasive products. Any liquid spilt on the product must be wiped up immediately. When lifting or moving the product, hold it on the structure and not under the seat. The product should not be subjected to unbalanced weights, as it is designed for a proper rest on the foothold (on four legs or on the base). Our company relieves from any responsibility in case of damage caused to fragile floors. Avoid any improper use of the product: do not step on the product, on the footrest or on the armrests. Avoid any movements that could compromise the proper functionality of the product or the safety of the users. Wood and leather, being natural materials, could be easily damaged. Small impurities or imperfections are within quality standard range. Do not expose the product to weather conditions or atmospheric agents, nor to heat sources over 40°C. Also products for outdoor use could be afflicted by atmospheric agents. The product could undergo possible exterior changes due to particular exposure to heat, humidity and saltiness. An appropriate and frequent maintenance and cleaning of the product enhances its durability. The product could change colour and shade, if exposed to direct sunlight. Maintenance has to be carried out by experienced staff. Dispose of the package only after assembling the product, in order to avoid the loss of ironmongery and components. Once the product has been dismantled, the product itself or its components must be given to the public garbage disposal system, according to the legislation in force.
