

PIANO DESIGN BOOKSHELF

INSTRUCTIONS TO CALCULATE THE PRICE FOR PIANO DESIGN BOOKSHELF

To obtain the price of the bookshelf add the prices of the single elements: shelves - steel supports - connection bulbs - adjustable feet.
For shelves with intermediate sizes, consider the price of the following bigger shelf.

INFORMATION REGARDING PIANO DESIGN BOOKSHELF

- Shelf thickness: 5 cm
- Standard distance between the shelves: 37, 45 cm
- Height of the adjustable feet: 4 cm
- Minimum shelf depth requested to avoid fixing the bookshelf to the wall: 35 cm
- Maximum space between two rows of steel supports: 148 cm
- Minimum space between two rows of steel supports: 30 cm
- Minimum height of steel supports: 20 cm
- Maximum height of steel supports: 110 cm (in this case wall fixing necessary)

Shelves in veneered blockboard, with solid wood edges, with single veneer up to length 320 cm. For longer shelves veneer will be in two glued pieces.

Modules with doors or drawers can be added, drawers are standard on wooden rails (upon request metal runners also available)

Start assembling the bookshelf from the adjustable feet, necessary to create a stable and levelled composition.

Then continue upwards combining the connection bulbs, the shelves and the stainless steel supports.

BOOKSHELF ELEMENTS

HARDWARE

Bookshelf in solid wood and multilayer, with shelves separated by thin stainless steel elements. It can be fitted according to different furnishing needs by inserting modules with hinged door or drawers assembled with dovetail joints and laterally recessed handle. Available with "double face" elements, it can be used as room divider.
