

Re-trouve / Armchair Design / Patricia Urquiola

The Re-Trouvé collection originates in traditional forms rediscovered and reinterpreted with cleverness and originality by Patricia Urquiola. Re-Trouvé furniture conveys elegance and character in both classic contexts and contemporary settings. Geometric designs consisting of repeated diamond-shaped patterns create unusual and charming forms. Re-Trouvé blends naturally in every outdoor setting.

Description

Code: **566**
Typology: **Lounge Chairs**
Collection: **Re-trouve**

Static Load: 200 Kg
Cushion Material: Acrylic fabric

Technical Info

Width: **Ø 76 cm**
Depth: **Ø 61 cm**
Height: **105 cm**
Weight: **8.80 Kg**
Static Load: **200 Kg**

Packaging

Packages: **1**
Pieces for pack: **1**
Dimensions: **77x64x107 cm**
Volume: **0.527 mc**

Polyethylene bag and cardboard box

Re-trouve / Armchair
Design / Patricia Urquiola

Colors

Materials

Steel

Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosion process.

Maintenance: To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.

Cushion Material

Acrylic fabric

The 100% acrylic fabrics combined with a polyurethane internal coating. This step makes it water-repellent, highly resistant to UV rays for excellent outdoor performance.

Maintenance: To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax. Evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venire assorbite dal materiale di rivestimento e dare luogo a macchie permanenti, oltre che deteriorare la struttura del filato. In caso di utilizzo vicino al mare o piscine si consiglia un lavaggio periodico. Lavaggi frequenti: seguire le istruzioni specifiche per ogni materiale riportate sull'apposita etichetta. Utilizzare acqua e detergenti liquidi non abrasivi con PH neutro e incolori. Eventualmente lasciare agire il detergente alcuni minuti. Sciacquare abbondantemente con acqua a temperatura non superiore a 30°C. Nel caso di utilizzo di dispositivi a pressione, tenere la punta del diffusore ad una distanza di almeno 60/70 cm dalla superficie del manufatto. Se necessario ripetere l'operazione. Non utilizzare spugne abrasive per smacchiare e non trattare con candeggina e cloro.
