VICTOR COLLECTION

The Victor credenza brings high fashion and high function to your workplace with crisp lines and smooth curves, lots and lots storage, and a rich palette of materials. The dynamic tapered body complements the powerful Victor desk, with a gorgeous Sable glass top that cleverly plays off the reverse hourglass shape of the Victor desktop. This handsome credenza provides two generous brushed stainless storage cabinets, each with a tempered clear glass shelf. Both the legal/letter file drawer and the deep storage drawer are clad in beautiful walnut veneer. Three angled utility drawers are fronted with brushed stainless panels, with the center drawer ready to accept a charging station to provide an out-of-sight haven for all your portable electronic recharging needs. Combined with the Victor desk and file cart, the Victor credenza brings fun to functionality. The Victor credenza is available in any Elite powder-coat finish, with walnut veneer components available in a variety of finishes. The Victor family also includes cocktail, end, console, and two rectangular dining tables.
